

# Mosquito Bingo

- Each Cub will need a dice & a print of this sheet.
- Ask each Cub to write a number between 1 & 6 into each box – there will obviously be duplicates but encourage them to use a mix.
- The first Cub rolls their dice and tells everyone the number – all Cubs mark off the matching mosquito body part so long as:
  - They must mark off the body (green) before doing the head, or any of the wings or legs (blue).
  - They must mark off the head (blue) before doing any of the eyes, antennae or proboscis (orange).
- The Cubs continue to take it in turns to roll their dice & share the number.....
- Once a Cub has marked off all the body parts, they shout **MOSQUITO!**
