

## Melted Snowman Biscuits

For this activity you can either bake your own biscuits or go and buy some to decorate.

### What Will I Need?

- Biscuits (homemade or store bought)
- Icing powder
- Decorating gels/icing
- Marshmallows
- Strawberry lace
- Decorating sprinkles

### Steps

1. Draw a snow puddle onto your biscuits.
2. While the icing is still wet, place a marshmallow onto one side of the biscuit.
3. Using the decorating gels, draw two branches to give your snowman some arms.
4. Give your snowman a face by either drawing it on with the gels or using some sweets and chocolate.
5. Give your snowman a scarf. You could draw it on or use some strawberry lace. Why not give it your groups scarf?
6. Leave your snowman to dry and then enjoy
7. To make it more youth shaped why not have a second set of biscuits and allow the young people to get creative with their decorating
