

Scouts

Tin Can Alley

For this one you will need some tin cans and a ball. This is one for those that have returned to face to face scouting

- 1) Set up the tin cans in several pyramids as they would be for a carnival game
- 2) Label each of the pyramids with an activity
- 3) Each young person will then have a go to throw the ball at the tin can alley labeled with their favourite activity
- 4) the winner of the game is the young person who is able to topple the last can of one of the pyramids
- 5) Those activities with the most balls thrown at them will be the preferred activity on your section
